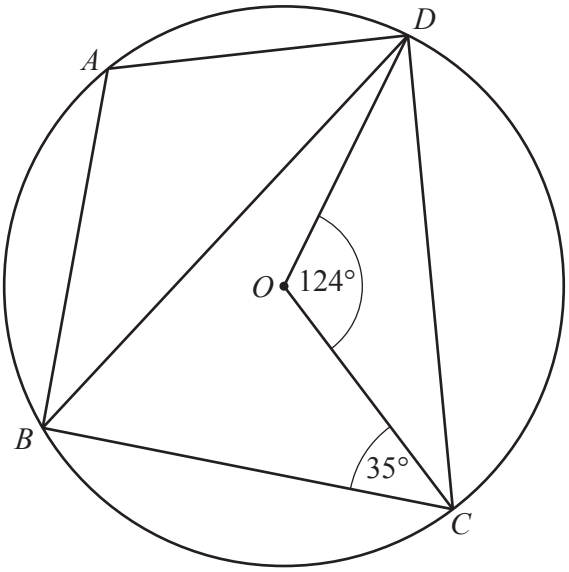
5 **(a)**



NOT TO SCALE

A, *B*, *C* and *D* are points on a circle, centre *O*.
Angle *COD* = 124° and angle *BCO* = 35°.

(i) Work out angle *CBD*.
Give a geometrical reason for your answer.

Angle *CBD* = ... because .....

..... [2]

(ii) Work out angle *BAD*.
Give a geometrical reason for each step of your working.

Angle *BAD* = ... because .....

.....

..... [4]

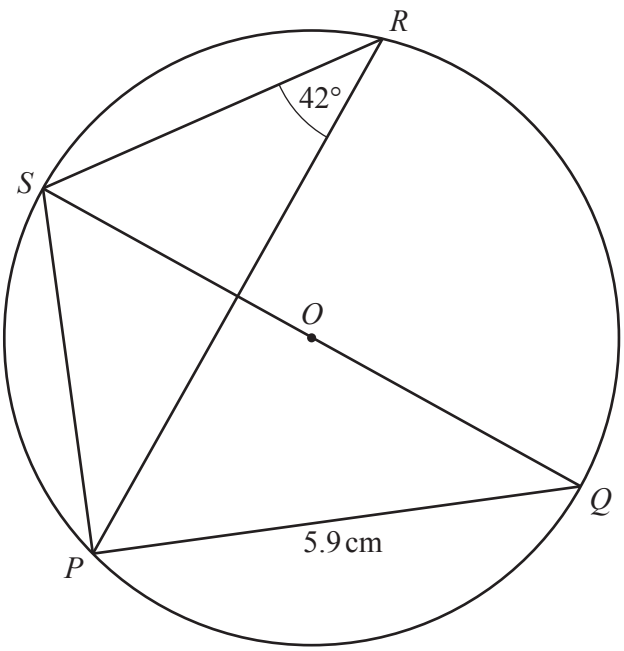
(b)



NOT TO SCALE

P, Q, R and S are points on a circle, centre O.
QS is a diameter.
Angle $PRS = 42°$ and $PQ = 5.9$ cm.

Calculate the circumference of the circle.

..... cm [5]
